

Hadi Dadashzadeh

Python Developer — Data Analysis & Automation

Tabriz, Iran · +98 994 581 4769 · Hadi.81000dadadhzade@gmail.com

github.com/hadidadashzade · linkedin.com/in/hadi-dadashzade · t.me/mrhadi_dev

I build working software, not tutorials. In the past few months I've shipped four tested Python tools, each debugged against real files, real APIs, and real edge cases. Currently sharpening my AI engineering skills through a hands-on internship. Looking for remote Python work where I can keep building things people actually use.

Experience

AI Internship — [Hython](#) (In progress · 3 of 6 months)

Hands-on internship applying Python and AI/ML fundamentals to real, team-based projects.

Featured Projects

WordPress Site Analytics Reporter — [Personal project](#)

CLI tool that connects to any WordPress site via its REST API and generates a content & engagement report.

Receipt & Expense Analyzer — [Personal project](#)

OCRs receipt photos into a spending report with automatic categorization — fully offline.

Invoice Generator CLI — [Personal project](#)

Converts Excel invoice files into styled PDF invoices with automatic total calculation.

AI Daily Planner — [Personal project](#)

Desktop task planner with AI-assisted prioritization, built with Tkinter.

Skills

Core: Python, pandas, NumPy, matplotlib, REST APIs, WordPress (familiar with Django)

Tools: Git, SQLite, Tkinter, Tesseract OCR, OpenAI API, Linux

Languages: Persian (native), English (working proficiency)

Education & Certifications

BSc, Computer Engineering — [Islamic Azad University](#) (In progress)

CS50x — Introduction to Computer Science — [Harvard University](#) (2022)

Python Programming Certificate — [Technical & Vocational Training Organization of Iran](#)
